

IFAC Nominating Committee 2020 Oversight Plan

1. Expected Nominating Committee (Nom Com) Activity in 2020

The IFAC Nom Com will run the selection process for the 2021 open positions, advertised in the Call for Nominations (CFNs - one for the IAASB, one for the IESBA, one for the IFAC Committees, which includes vacancies of Nom Com members).

The IESBA Chair position has not been advertised as the current Chair is eligible for re-appointment.

The 2021 CFNs continue to refer to three categories of members: Practitioners, Non-Practitioners, and Public Members. The multi-stakeholder approach foreseen in the MG Reforms has not been translated yet into a different composition of the SSBs. However, for Public Members and Non-Practitioners, the CFNs have brought in the categories of institutional investors and nominees from regulatory bodies, among the others.

Following discussions with the MG and IFAC, the PIOB suggested that reforms may be agreed in the course of 2020 and the structure and composition of SSBs may be affected in 2021, having an impact on the structure, the categories, the size of SSBs, and the terms of current and new selected members. The 2021 CFNs acknowledged this possible scenario, mentioning that changes may potentially affect the term of service of current members.

The transition to the new model will require a number of tasks, among which: costing, skill matrix, the establishment of a “new” Nominating Committee, change of SSBs’ Terms of Reference.

2. Oversight Activities Planned in 2020

The PIOB will continue overseeing the nominations cycle, as part of its mandate. The nominations cycle, including the Nom Com’s activity and the PIOB’s oversight activity, is described in **Appendix I**.

PIOB staff and the PIOB Board member designated as observer of the Nom Com review the documentation prepared by IFAC staff for each Nom Com meeting and teleconference and identify the relevant public interest issues/recommendations, which are raised by the observer during the meeting. PIOB’s suggestions and recommendations may be submitted to IFAC staff in advance of the meetings. Before the CFN is discussed, the PIOB usually submits its written comments to IFAC staff.

The PIOB follows up on how its recommendations/comments have been addressed by the Nom Com. These comments may relate to the CFN, the composition of SSBs and their categories of members, disciplinary actions on specific members, the travel support program.

The PIOB ultimately needs to deliberate on appointments and re-appointments and provide its approval on membership of the IAASB, the IESBA and the Nom Com (non ex-officio members).

Public Interest Oversight Board

PIOB staff will prepare Briefing Memos for the PIOB Board members who will observe the Nom Com meetings. Observers will prepare their Observation Memos for each meeting, which will be discussed at the PIOB Board quarterly meetings.

2.1. Approvals Scheduled in 2020

The 2021 open positions for the IAASB, the IESBA and the Nom Com members (excluding ex officio members) are shown in the table below, as well as the number of members eligible for re-appointment. When the nominations cycle is finalized (usually in September), the appointments and re-appointments are submitted to the PIOB for approval.
