

The PIOB certifies the IESBA approval of the “Revisions to the Code addressing tax planning and related services”

Madrid, 11 April, 2024

The Public Interest Oversight Board (PIOB) has issued the public and separate certification on the “Revisions to the Code addressing tax planning and related services” as approved by the International Ethics Standards Board for Accountants (IESBA).

The PIOB has overseen the standard-setting process throughout the full development of the standard. The PIOB certification follows a written statement from the IESBA and confirms that the standard has been developed in a manner consistent with agreed due process, and that it is responsive to the public interest, informed by the concepts and principles of the Public Interest Framework.

For more information

The recommendations and the public interest issues, raised by the PIOB and provided to the IESBA related to the standard throughout the standard-setting process, are available on the [PIOB website](#).

The [Public Interest Framework](#), issued by the Monitoring Group (MG), as part of the MG Recommendations, sets out the new certification process implemented in the standard-setting process.
